

What you'll need:

Beans, fabric, heavy brown felt, sewing machine (or stitch by hand), pins matching or neutral thread, scissors, fabric marking pencil (I just used a sharpie marker).

STEP 1: Pin the antlers template to your thick brown felt, trace and cut.

STEP 2: Using the bean bag body template, trace onto wrong side of fabric and cut out a front and a back.

STEP 3: Sew the bean bag body together approx. 25 IN. seam allowance - wrong sides facing out with reindeer antlers pinned on the inside. Leave about 2 IN. unsewn on one side so you can turn inside out.

STEP 4: Turn inside out and sew buttons on for eyes.

STEP 5: Fill with beans and sewing up the side.

STEP 6: Sew a larger button on for the nose. Red for one if you want a Rudolph.
