

Cloud Bookmark Template

Supplies

- Thick felt
- 3/16" ribbon
- Freezer paper
- A fine point black marker
- A pink marker
- Scissors
- X-Acto (precision knife)
- An iron

Instructions

Cut the cloud shape out of thick white felt.

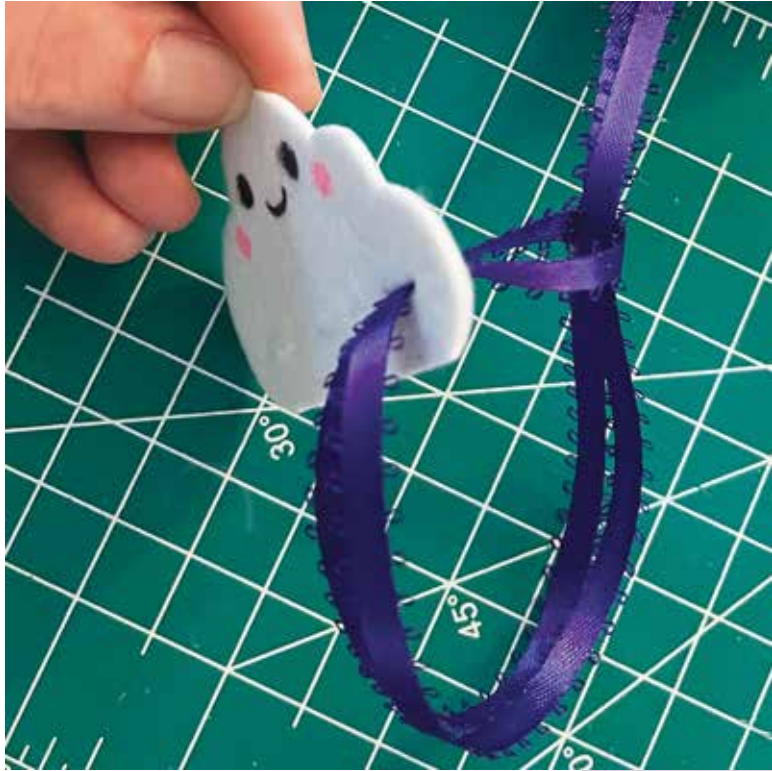

An easy method is to print this page and trace the template onto the matte side of freezer paper.

Next, iron the shiny side of the freezer paper onto the felt using medium, dry heat. You only need to press for a few seconds.

Cut the cloud shape with sharp scissors and use a precision knife to cut the three slits.

Draw a face with markers and loop the ribbon through.
